WAY AHEAD.

## ENGINEERED FOR EXCELLENCE

# WE MAKE YOUR EVERYDAY WORK SIMPLE AND SUCCESSFUL

The lucrative suspension and damper business is highly competitive from all sides: from manufacturer workshops to independent workshops. With BILSTEIN products, you are always on the road to success and benefit from premium OE quality, an attractive price-performance ratio and a comprehensive service. This increases your customers' satisfaction and guarantees long-term and attractive profits.

OE

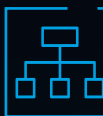

### OE COMPETENCE

As a global player, BILSTEIN ensures the ultimate driving experience that perfectly meets the highest demands. With groundbreaking innovations, we are constantly setting new standards in shock absorber technology. That is why we are the unrivaled market leader in semi-active shock absorbers.

### PREMIUM OE QUALITY

Our comprehensive approach ensures that each product meets the highest standards. This allows us to deliver shock absorbers that meet the exceed OEM standards and the demands of aftermarket customers. Both our OE and aftermarket products are manufactured by the same skilled engineers and technicians using the same advanced machinery on the same production sites.

### BROAD PRODUCT PORTFOLIO

We offer you the ideal solution, whether on the road, the race track or off-road. From sporty lowering to dynamic racing performance, or all the way to maximum lifting, we always have the perfect driving experience in mind.

### HIGH ACCESSIBILITY

Today, with more than 4,500 employees in six countries, we produce around 13 million shock absorbers every year. With our globally connected teams, we do everything we can to ensure that the desired products are available in the shortest possible time around the globe.

## UNRIVALED TESTING

The stringent standards of automotive manufacturers are a minimum benchmark to be exceeded at every stage of product development. With electro-mechanical test rigs, climate chambers, and road testing, we maximize durability and performance – so you can rely on suspension solutions that meet the highest demands.

Tested with up to **1 MILLION** load changes

Tested at **-40 °C**

Even up to **120 °C**

Tested with lateral forces up to **4,500 N**

Salt spray tested for at least **1,008 hours**

### PLUG & PLAY

BILSTEIN products ensure seamless installation and time savings. Whether a simple damper or a highly complex electronic suspension system – maximum fitting accuracy ensures quick and problem-free installation and adherence to the calculated installation time.

### SPARRING PARTNERS & GLOBAL NETWORK

Take advantage of the know-how of our BILSTEIN Partners and BILSTEIN Service Centers, qualified experts in installing BILSTEIN products. The Centers not only select and install our dampers and suspension systems but also assist with damper repairs and custom solutions for special applications. BILSTEIN Partners help you choose the right product to improve your car's driving performance, but will also precisely install and calibrate your new suspension.

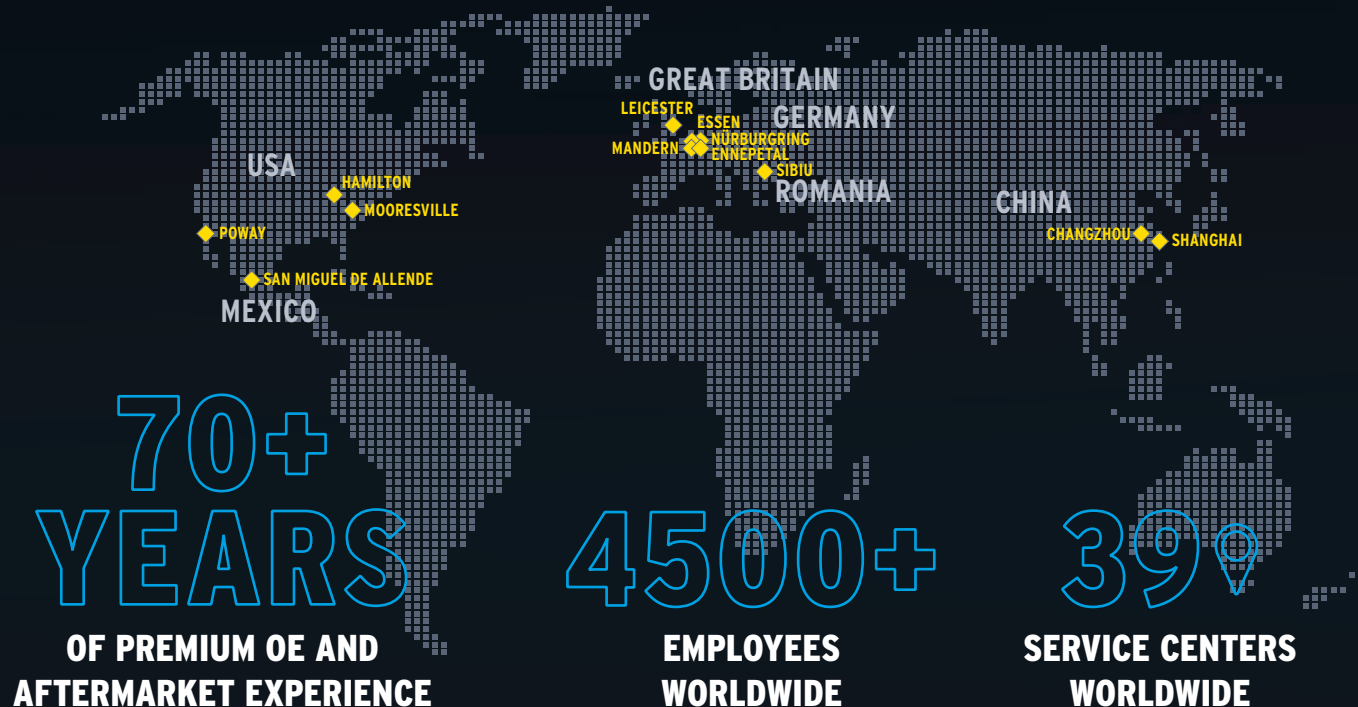

### HIGH PROFITABILITY

Use BILSTEIN's reputation for quality and innovation to grow your business and offer your customers superior products they can trust. Even if outstanding OE technology and quality come at a premium, BILSTEIN always offers you compelling advantages to help you secure a successful sale.

### SUSTAINABILITY

We don't see sustainability as a mere obligation – to us, it is second nature. With our technically innovative products, sustainable energy, optimized logistics and environmentally friendly packaging, we are on the way to significantly reducing our and your carbon footprint.

## STRONG BRAND – WAY AHEAD

BILSTEIN is one of the best-known brands in the automotive world. More than 70 years of experience in original equipment and 50+ years of racing history make our products and services unique. Countless awards in readers' polls prove that customers fully trust in the quality of our outstanding products.
